Curtis Nurseries, Inc.
Callicoon, N. Y.

Telephone Callicoon 85

To Our Customers and Friends:

My father, Charles G. Curtis, established this nursery along the banks of the Delaware River some 52 years ago. You will agree that this length of time speaks for business stability.

Primarily we have been specialists in Hemlock and Rhododendron. Our collection of unusual Hemlock variants, which are slow growing forms of great landscape value, are unequaled anywhere.

Our nursery now includes 156 different species of trees and shrubs.

Study this catalogue and then come to see us.

Valleau C. Curtis,
President.

NURSERY INFORMATION:

All items listed in this catalogue are growing in our nurseries at or near Callicoon, New York

We dig all plants to order except for weekend sales, when plants are dug in advance for your convenience. We sell but do no digging on Sundays.

Our nursery and sales yard are **OPEN SUNDAY AFTERNOONS** thruout the Spring season.

LANDSCAPE COUNSEL:

Bring your plans or snap shots of your property to our nurseries. We have competent trained landscape people to make suggestions and advise you as to your lay-out. On large or newly constructed homes it is best to engage our landscape architect to develop a design and draw a plan.

At any rate talk it over with us and we will do our best to help you.

GUARANTEES:

After a tree or shrub is out of our control we can not be held responsible for its condition. We do guarantee that the plant will be well dug, with an adequate root system and in good healthy condition when it leaves our hands.

DELIVERIES:

Free delivery in quantities aggregating \$100.00 or more in value to points within radius of 25 miles of Callicoon.
